

The choice is yours. Choose quality and portability

We have so many choices these days. It may seem overwhelming to choose from a wide array of available supply chain training options. What criteria can you use to select the best option?

- ✓ Does the training give you the newest insights?
- ✓ Is the certification sought by employers
- ✓ Is it a global level training valid across the world and a truly recognized standard in supply chain education in companies
- ✓ Does the certification make you stand out in the job pool?

Search no more: ProQua's APICS CLTD course checks all the boxes

No matter where you are in your logistics career, earning the CLTD credential will demonstrate your mastery of a broad range of logistic, transportation and distribution topics.

APICS CLTD is an internationally recognized certification program geared towards professionals who are currently or will be in the near future working in logistics, transport and distribution environments.

CLTD helps with tactical planning of logistics and distribution.

CLTD Builds knowledge that will help you streamline logistics and cut costs by strategically looking at all aspects of your logistic operations throughout the entire supply chain

Content of APICS CLTD

Participants to the CLTD seminar learn to evaluate and improve logistic, warehousing, transportation and distribution activities within an organization's global operations framework. Furthermore, participants will be equipped with knowledge and best practices for today's logistic, warehousing, transportation and distribution challenges given the rapidly changing global environment. Next to that, participants will learn managing, evaluating and improving the required documentation flows and to adhere to international regulations related to the physical and documentation flows. Participants will also learn the necessary common terminology and definitions in order to speak the same language in the logistic, warehousing, transportation and distribution area.

Format

The APICS CLTD Certification Program is a compact program made up of 9 modules.
