The choice is yours. Choose quality and portability

We have so many choices these days. It may seem overwhelming to choose from a wide array of available supply chain training options. What criteria can you use to select the best option?

- ✓ Does the training give you the newest insights?
- ✓ Is the certification sought by employers
- ✓ Is it a global level training valid across the world and a truly recognized standard in supply chain education in companies
- ✓ Does the certification make you stand out in the job pool?

Search no more: ProQua's APICS CSCP course checks all the boxes

APICS CSCP

The APICS Certified Supply Chain Professional (CSCP) program is recognized worldwide as the premier supply chain management education and certification program.

Focus:

CSCP is focusing on external relationships (customer and supplier relationships) and coordination of internal processes.

Distinguish Yourself as a Supply Chain Expert

With the APICS Certified Supply Chain Professional **CSCP** program, you can take your career and organization in a new and exciting direction. Shape your future, align your goals and distinguish yourself from the competition. In this challenging global marketplace only the most well trained, well educated professionals will be sought after by employers and valued organizations. Join their ranks today by earning the APICS CSCP designation.

The APICS CSCP program takes a broad view of operations, extending beyond internal operations to encompass the entire supply chain – from supplier, through the company, to the end consumer. The program provides professionals with the knowledge necessary to understand and manage the integration and co-ordination of end-to-end supply chain activities.

Who should earn the CSCP designation?
The APICS CSCP designation is for professionals who are interested in increasing their knowledge and expertise in the field of global supply chain management.

APICS CSCP Modules

Based upon the most recent Global Job Task Analysis, the APICS CSCP Learning System modules have been extensively updated for 2022.

To earn your CSCP designation, you must pass one exam covering eight modules. Each module reflects critical areas in supply chain management.

Module 1: Supply Chains, Demand Management, and Forecasting
Module 2: Global Supply Chain Networks
Module 3: Sourcing Products and Services
Module 4: Internal Operations and Inventory
Module 5: Forward and Reverse Logistics
Module 6: Supply Chain Relationships
Module 7: Supply Chain Risk
Module 8: Optimization, Sustainability, and Technology

Certification
The APICS Certified Supply Chain Professional designation is earned by passing one certification exam.

APICS CSCP Testing

APICS CSCP is available as computer based testing **cbt** through the Pearson Vue network of test centers. All APICS exam are available as on demand exams.

Testing availability is on first-come, first-served basis and changes in real-time as exams are scheduled and rescheduled. Therefore, to see test center availability, an exam authorization must be on your account.

- Exams are administered through the Pearson Vue test centers.
- Your score report is available immediately after the exam.
- ProQua is APICS Premier Elite Partner and offers you APICS Exam service. You or your company can buy exam credits through ProQua

Score report

At the end of the exam, candidates will receive a printed score report that includes the candidate's name, exam title, score, and pass or fail information.

CSCP Certificate

Candidates who have passed the CSCP exam and have earned a CSCP designation, will receive a printed certificate within four weeks of passing the CSCP exam.
